Bomb Royale is a game where different bears with unique style try to destroy their opponent by using dynamite and special power in different arenas and try to sit on the throne.

In the beginning we have 12 different characters that we have prepared for you. Of these, **Mocha**, **Darius** and **Gus** are ready to play.

How do we play other characters?

Do not be afraid! No micro payment. You'll be rewarded with gold for every win and every kill score. You will have the right to open the new characters with the gold you have collected.

YOU'RE IN ARENA

Keep in mind! Even though it's not an middle age Rome Arena, it is still an arena. The weather does not affect the bottom of the fur, but your opponent will affect you. Chase or get chased..

YOU'VE ONLY ONE WEAPON

OBSTACLES

We have some obstacles with your opponent. Apart from fixed walls, we have obstacles such as boxes and glaciers. Apply your tactics accordingly, don't get trapped!

POWER-UPS

We can get you some help on the road to first place. These benefits will also increase the competition in the arena. There are four kinds of special power-up boxes for now. These special powers can come out of the boxes you broke in the arena. So what are these power-ups?
